

# Merry Christmas

It's that time of year once again, when everyone gives an update on all the going on for the year.

Chris, will be 24 January 12th, living with Carley and Cayden, who is 3 years of age, and Cayden is a true gentleman. Thank you, please, and No Sir, etc. Chris still working at the Marina. He loves that kind of work. Been working there since he was 16 years of age.

Drew, turns 21 on December 26th, and works at Kum and Go. He loves it there. But on December 29th he will be a married man. He fell in love with this young girl, CJ when she was 14 years old and

she turned 19 last week, they got together this past May, and sparks flew.

Here they are on our back porch.

Brad, in a few days will turn 19, is working at the Wal-Mart and he does enjoy his work. So far, no young lady has captured his heart.

Damon is working at Wal-Mart in the Insurance Building in Rogers. Which is part of the home office. Most of home office is in Bentonville. Him and Stella are doing okay. Both of them have a lot of health problems. Especially Stella.

Dennis is 51 now and still single. Sure wish he would find a mate. In June Dennis took a trip to Japan. He had a wonderful time there. Spend about a month there. He is still working at the Neighborhood Market, and he works all the time. The next picture is of Dennis, standing in front of

the manger scene, showing off his and Fred's handy work. This summer, they want to add more to the manger scene. Hook it all up to sound and lights.

Now for the newest addition to our family. Kitty.

Right now, at 6:30 AM she is meowing for my attention.

We figure she is about 10 years old. She adopted us

about 3 years ago. It took her about 6 months before she finally was allowed into the house. I was the one that did not want her in the house. She actually belongs to the kids, but they have 3 dog, 2 big dogs and a little dog. That's why she likes it over here. No dogs and she is declawed, I do not have to worry about my furniture.

Fred and I are doing really well. In July I had both breasts removed due to the Big C. I was one of the lucky ones they could not find any cancer in any of my lymph nodes. All 26 of them were cancer free. Praise God. I do have to take a pill every day for the next 5 years, but no chemo or radiation.

That's it from The Zaeske Family. We pray that you and your family have a wonderful Christmas and a Great New Year.

Love and Prayers,

Fred, Dot, Dennis, Damon, Stella, Christopher,  
Andrew, Bradley, Kitty, Sugar, Holly, and Mabel

Christmas day 2009, Stella, Drew, Damon, Chris, with  
Brad standing up in the back.

Fred and Me, with Brad.

We haven't changed much. Just a little older.

Fred and Dennis, removing snow from our driveway  
February 10, 2011 in 20-degree weather.

**Merry  
Christmas  
and  
Have  
A  
Blessed  
2013**
